| <b>1</b> | <b>Training Curricula.</b> Personnel must receive training in the requirements commensurate with their responsibilities. Such training must include:   |                       |                              |     |    |
| a        | Familiarization training - which must be aimed at providing familiarity with the general provisions  | ICAO TI 4.2.1         |                              |     |    |
| b        | Function-specific training - which must provide detailed training in the requirements applicable to the function for which that person is responsible  | ICAO TI 4.2.1         |                              |     |    |
| c        | Safety training - which must cover the hazards, presented by dangerous goods, safe handling and emergency response procedures  | ICAO TI 4.2.1         |                              |     |    |
| <b>2</b> | <b>Recurrent Training</b>  |                       |                              |     |    |
| a        | Recurrent training should cover the areas relevant to initial Dangerous Goods training unless the responsibility of the individual has changed   | AC OPS 1.1220         |                              |     |    |
| b        | Test to verify understanding. It is necessary to have some means of establishing that a person has gained an understanding as a result of training; this is achieved by requiring the person to undertake a test. The complexity of the test, the manner of conducting it and the questions asked should be commensurate with the duties of the person being trained; and the test should demonstrate that the training has been adequate. If the test is completed satisfactorily a certificate should be issued confirming this              | AC OPS 1.1220         |                              |     |    |
| <b>3</b> | <b>Training Methodology</b>  |                       |                              |     |    |
| <b>a</b> | <b>General</b>   |                       |                              |     |    |
| (1)      | Training intended to give general information and guidance may be by any means including handouts, leaflets, circulars, slide presentations, videos, etc, and may take place on-the-job or off-the-job   | AC OPS 1.1220         |                              |     |    |
| (2)      | Training intended to give an in-depth and detailed appreciation of the whole subject or particular aspects of it should be by formal training courses, which should include a written examination, the successful passing of which will result in the issue of the proof of qualification. Training courses should include the course objectives, the training program syllabus/curricula and examples of the written examination to be undertaken   | AC OPS 1.1220         |                              |     |    |
| (3)      | Aspects of training. The aspects of training specified in the Technical Instructions are applicable whether the training is for general information and guidance or to give an in-depth and detailed appreciation. The extent to which any aspect of training should be covered is dependent upon whether it is for general information or to give in-depth appreciation. Additional aspects not identified in the Technical Instructions may need to be covered, or some aspects omitted, depending on the responsibilities of the individual | AC OPS 1.1220         |                              |     |    |

|----------|--------------------------------|

|     |   |               |  |  |  |
|-----|---|---------------|--|--|--|
| (1) | Training providing general information and guidance is intended to give a general appreciation of the requirements for the transport by air of dangerous goods. It may be achieved by means of handouts, leaflets, circulars, slide presentations, videos, etc, or a mixture of several of these means. The training does not need to be given by a formal training course and may take place 'on-the-job' or 'off-the-job' | AC OPS 1.1220 |  |  |  |
|-----|---|---------------|--|--|--|

|     |  |               |  |  |  |
|-----|--|---------------|--|--|--|
| (2) | Training providing in-depth guidance and a detailed appreciation of the whole subject or particular areas of it is intended to give a level of knowledge necessary for the application of the requirements for the transport by air of dangerous goods. It should be given by a formal training course which takes place at a time when the person is not undertaking normal duties. The course may be by means of tuition or as a self-study program or a mixture of both of these. It should cover all the areas of dangerous goods relevant to the person receiving the training, although areas not likely to be relevant may be omitted (for instance, training in the transport of radioactive materials may be excluded where they will not be carried by the operator) | AC OPS 1.1220 |  |  |  |
