

The EU supports the Civil Aviation Regulatory Commission (CARC) to strengthen its capabilities in line with EU norms, legislation and standards.

An opening seminar to launch the EU funded twinning project (JO12/ENP/TP/19) between the Aviation Safety and Security Agency of Spain (AESA) in collaboration with the Civil Aviation Regulatory Commission of Jordan (CARC) took place on Tuesday 14/01/2014 at 9:30, at Four Seasons Hotel Amman/Grand Ballroom.

The main objective of this twinning project is to promote the development of Civil Aviation safety, security and environmental regulatory conformance, while ensuring the economic soundness of a liberalized industry which is in line with EU standards.

The seminar was attended by a number of high level guests, mainly from the sector of Air Transport and Civil Aviation.
