CARC Ban List

The civil Aviation Regulatory Commissions, CARC reviews aircraft and operators certificates of most operators that operate flights to Jordan before approving the landing permission of these flights and also conduct SAFA inspections randomly on selected aircraft and operators in order to enhance flight safety.

Based on the results revealed of the above process, CARC establishes a local ban list of Foreign Operators and/or Foreign aircraft that might jeopardize the flight safety. If an operator or an aircraft is included in this list, therefore, it will be automatically banned from landing at any Jordan airport.

This ban list shall be approved by the Chief Commissioner.
